

LESSON PLAN	COURSE: MDM4U
Date:	Unit of Study: Unit 1
Materials/Resources: Mathmetics of data management study guide	Lesson Focus/Theme: Chapter 3: Statistics of two variables
Prior Knowledge: Scatter plots, linear correlation and regression	
Overall Expectations: By the end of this lesson, students will: analyse, interpret, and draw conclusions from two-variable data using numerical, graphical, and algebraic summaries;	
Specific Expectations: 2.4 determine, by performing a linear regression using technology, the equation of a line that models a suitable two-variable data set, determine the fit of an individual data point to the linear model (e.g., by using residuals to identify outliers), and recognize these processes as strategies for two-variable data analysis 2.5 interpret statistical summaries (e.g., scatter plot, equation representing a relationship) to describe the characteristics of a two-variable data set and to compare two related two-variable data sets (e.g., compare the relationship between Grade 12 English and mathematics marks with the relationship between Grade 12 science and mathematics marks); describe how statistical summaries (e.g., graphs, linear models) can be used to misrepresent two-variable data; and make inferences, and make and justify conclusions, from statistical summaries of two-variable data orally and in writing, using convincing arguments	
Learning Goals: By the end of this lesson, students will know cause and effect and also the critical analysis	

Success Criteria:

By the end of this lesson, I will be able to do cause and effect analysis

By the end of this lesson, I will be able to do critical analysis

Assessment Strategies: Tests, quiz and project**Time:**
10 min**Introduction/Minds-On:**

Answer questions students don't understand from last class if any

Time:
100 min**Lesson:**

Chapter 3: Statistics of two variables

3.4 Cause and effect

3.5 Critical analysis

Time:

10 min

Extension / Wrap-up:

Review the key concepts and formula for this lesson

Notes / Reminders / Homework:

Review for test

Lesson Reflection:
